## Challenge

To overcome the perception that IKEA is always the same, not surprising enough, offering nothing new to customers

### **Objective**

We want people to see IKEA is so different that you can find here products, solutions and ideas that fit many different people and many different homes

We want people to feel inspired about new ideas in Home Furnishing

We want people to visit both the IKEA stores and web site using the opportunity to buy online

## Insight

People have **different tastes and preferences**, get ideas from different sources, but one thing in common is that **everybody wants home** to be truly "his" or "hers", **to reflect the personality of the owner**.

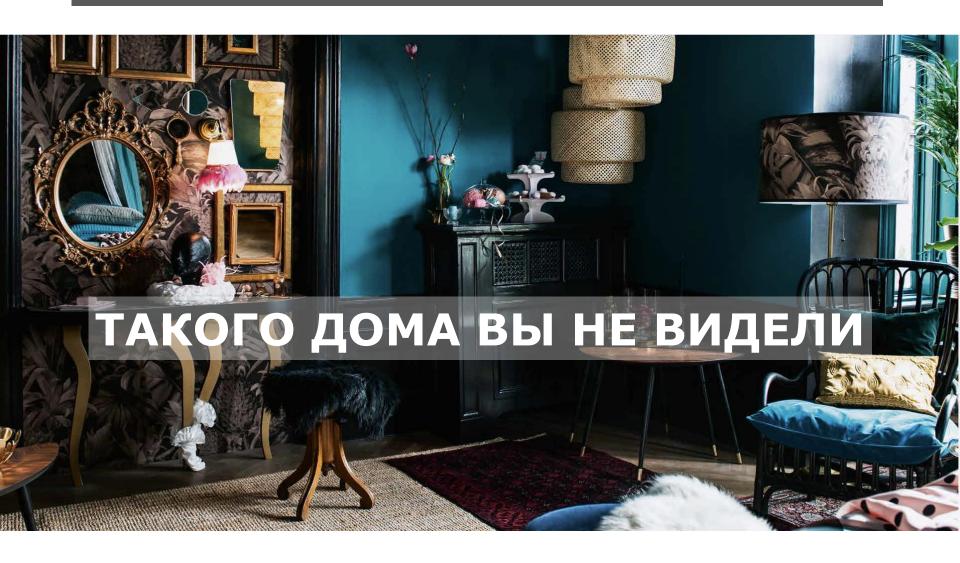

And very often, even when you have a picture of your "dream house", you are stuck looking for the place that can offer you everything, from inspiration to complete solutions, to make your dream come true

#### **IKEA** role

IKEA offers many ideas, products and solutions of different styles to

satisfy the preferences and tastes of many different individualities, even the ones you never expected from IKEA

## **CREATIVE IDEA**

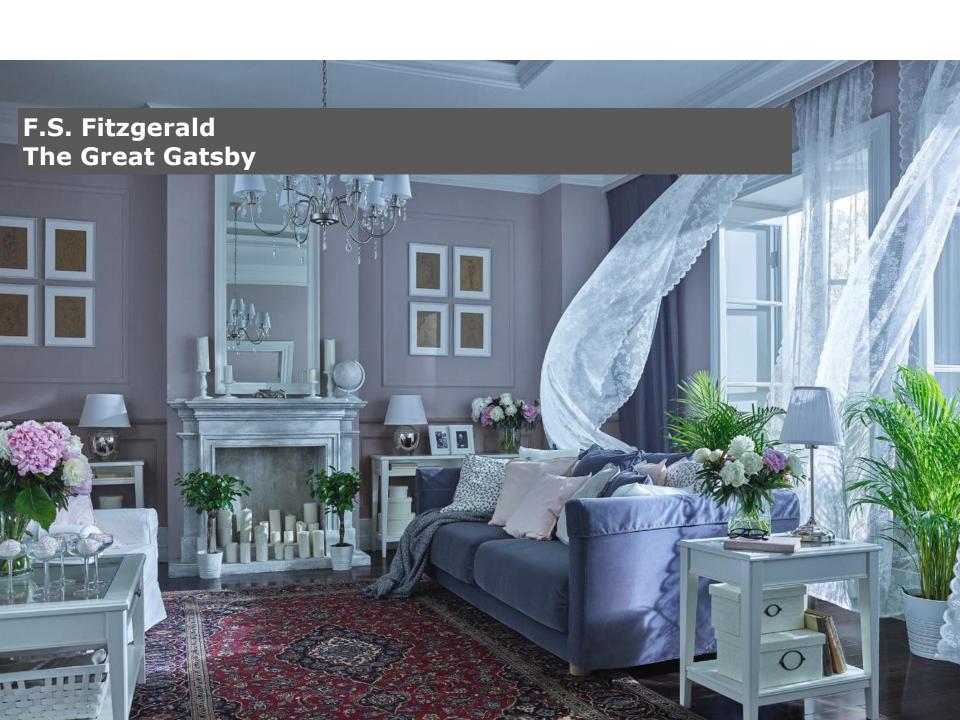

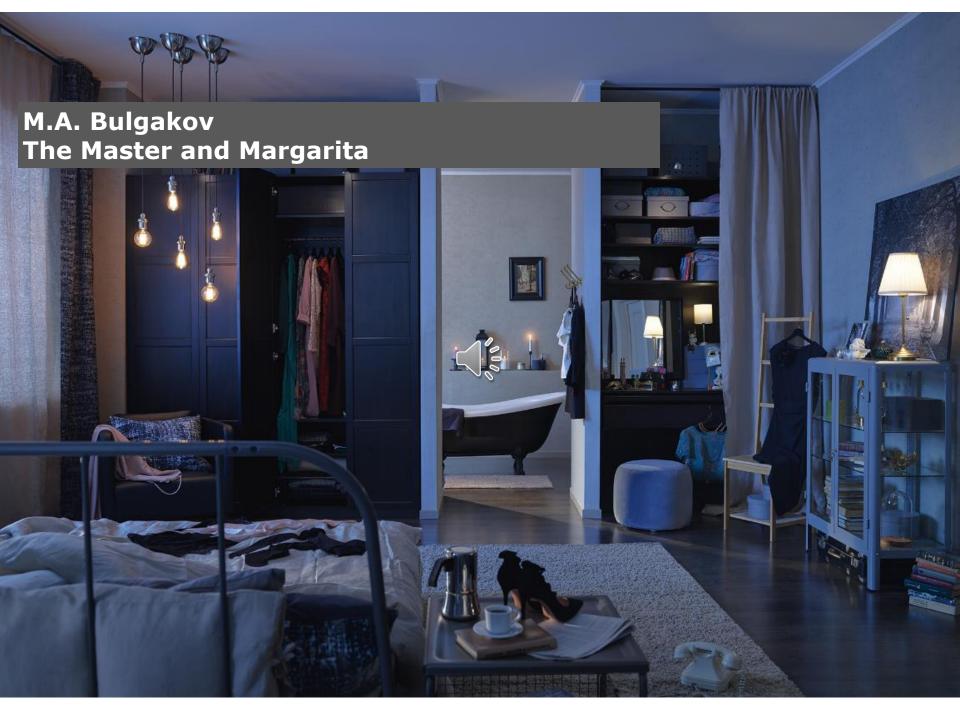

### **CREATIVE IDEA**

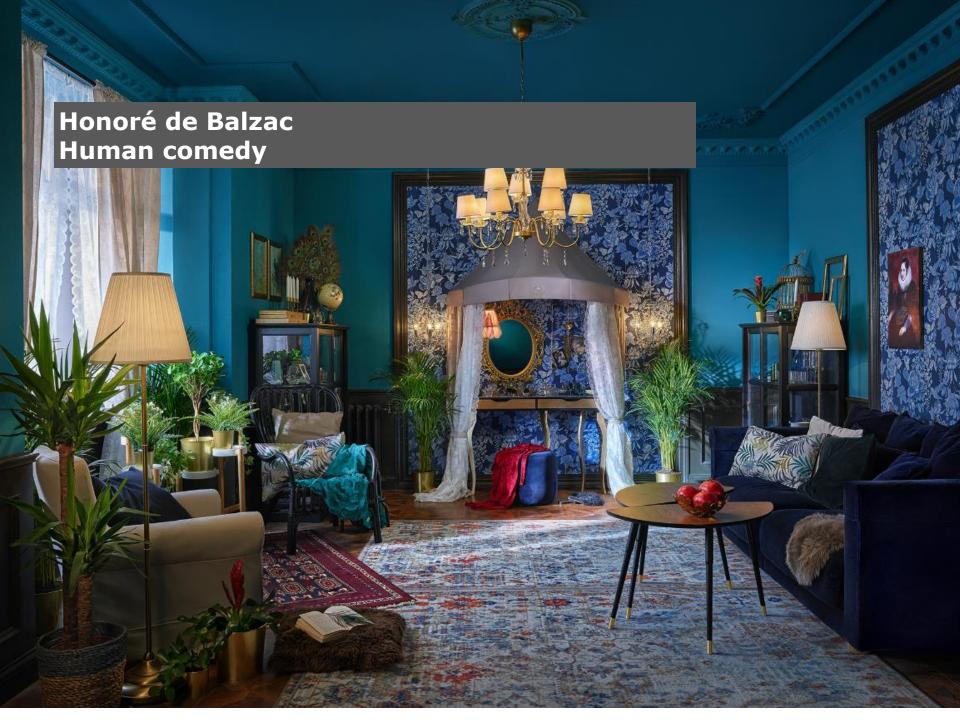

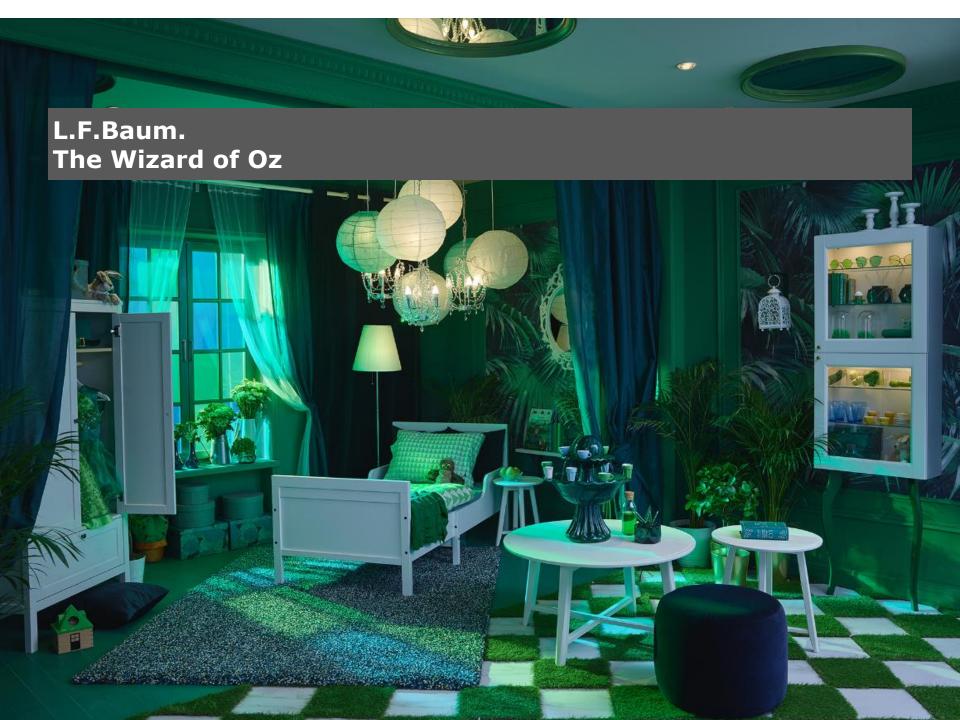

We create **5 interiors inspired by texts in 5 legendary books** by different authors from different epochs and literature styles.

Now matter how extravagant your idea is – **IKEA** is there to help your dream come true.

Маленькая струйка воды взлетала вверх и падала в зеленую мраморную чашу искусной работы. На окнах стояли зеленые цветы в горшках, на полках — маленькие зеленые книжки. Дороти открыла одну из них

ь в комнате в парадной

и обнаружила внутри забавные зеленые картинки, которые ужасно ее рассмешили. В гардеробе Дороти нашла множество зеленых платьев — шелковых, атласных и бархатных, и все они были ей впору...
